

Royal Holloway Students' Union Department Rep Briefing

Department: Electronic Engineering

For the Academic year: 2024-25

Date Prepared: July 2024

Created By: Dr Elise Thornton, Research and Insight Coordinator

Background

Department briefings are prepared annually, collating the data from the Staff-Student Action Meeting (SSAM) and the outcomes of the National Student Survey (NSS). The briefing aims to give an understanding of the student opinions of the activities within the department.

Commentary

The comments section for Electronic Engineering students did not meet the minimum threshold for the 2024 NSS. All the below commentary came from the combined undergraduate and postgraduate SSAM action logs for the 2023-24 academic year and is not reflective of their student experience.

Students from this cohort experienced a marking and assessment boycott in their second year of study as well as disruptions from UCU strike action during their first and second year of study. These incidents could have an impact on the 2024 NSS scores.

Key Themes	Commentary	
	Things working well	Areas for improvement
Community		<ul style="list-style-type: none"> Improve student experience at London campus Prayer room in London campus
Facilities		
Teaching	<ul style="list-style-type: none"> Teaching and guidance were excellent Good content coverage in modules 	<ul style="list-style-type: none"> Link support for MSc students who have theoretical experience but not practical experience
Assessment		<ul style="list-style-type: none"> Tight deadlines during Term One Group work not equal Would like more assessment support from module leaders
Communication		<ul style="list-style-type: none"> Last minute room changes in timetable is disruptive

NSS

The National Student Survey (NSS) is a nation-wide survey of all final year undergraduate students studying at institutions across the UK and is managed by the Office for Students (OfS). The survey has run on annual basis since 2005. In 2020 the OfS undertook a significant review of the survey questions with an aim to refresh the NSS with questions that are more direct using positivity measure with a four-point scale to gain more accurate insight into the undergraduate student experience at UK universities.

The NSS 2024 questionnaire had 25 core questions which were grouped into six categories, or scale questions around themes like teaching, resources, academic support and there is a specific question about Students' Unions which is a part of the Student Voice category. Each of the six scale questions are composed of multiple questions which explore various elements of this theme in more detail. There were two additional questions included around mental health and freedom of speech, of which the second was offered only to students in England, and Royal Holloway included these questions in 2024.

Below is a table of the scores the Department received following the 2024 NSS. This can help you inform areas that may working on and monitoring. This data can also inform the comments provided above. The term 'positivity measure' means the proportion of respondents who gave a positive answer.
