

Date & time 24th of November 5-7pm The Board Room & Microsoft Teams Location • Hannah Hockin (HH) - VP Sports & Societies (Chair) Attendance • Maia Jarvis (MJ) - President • Laura Black (LB) - Student Opportunities Manager • Aran Pascual Quiros (APQ) - Representation and Democracy Coordinator (Secretary) • Daniel Phillips (DP) - SSO member • Tana Randle (TR) - SSO member • Myles McEvoy-Palfreyman (MMP) - SSO member • Makhmud Abdulkerimov (MA) - SSO member • Georgina Pridham (GP) - SSO member Max Woollett (MW) - SSO member Absences: Esther Uwadione, Jaswanth Thummala and Apologies 0 Orla Crane, no apologies received

Item	Action	Responsible	Due
Officer Update	Include spiking prevention in the next round of committee training, potentially as part of the welfare training, with proper support and a zero-tolerance approach.	HH/LB	
Varsity	To send an email to the groups competing at Varsity and to consider opening it up to groups who are not participating in varsity as well to raise engagement.	HH	
	To ensure that off-campus teams are included in the promotional video and arrange professional photos to be taken in off-campus groups.	LB	
Student Group Training	To consider the possibility of creating a networking opportunity as part of a platform given by the SU to encourage collaboration, based on the said demand of people who care about the societies to engage with each other.	LB/HH	
Freshers Fair and GIAG	To look into spacing for the fair and committee allocation to ensure every society and club has equal spacing and opportunities to engage with students.	LB	
	To communicate with the College the possibility of blocking out days when big student events take place such as FF and GIAG.	HH	
Sustainabiliyy Fund	To consider attaching the form to the guide, including that it is very recommended to	LB	

SSO Executive Minutes

read the guide which perhaps could be included in the principles.		
To consider pushing the Carbon Literacy training for all RHSU staff.	LB	
To communicate with student groups the possibility of doing external facing communications for the impact report (such as an Instagram post).	HH/LB	

Item	Notes	Action
Item Officer Update	Notes o HH does a quick summary of the paper sent ahead of the meeting o Buddy Scheme o Access Fund o Presence of the VP Socs&Sports o Spiking in Socs & Sports o Monthly awards system • Committee members would nominate a student that has contributed to the group • Society & Sports as separate o Stigmatised subjects through Socs&Sports o Disability History Month o GP asks if on spiking support they are only doing it as SU awareness or if it would be rolled out to societies & sports o HH mentions she wanted to make it more aware in societies o GP mentions it would be helpful to get societies into prevention, for example committee training instead of reactive with post-spiking tests o o HH mentions she did try with the prevention measures before fresher's but she understands it should be included in the training rather than an instagram post o o GP agrees o MJ agrees it could be included in the welfare training with proper support and a zero tolerance approach o ACTION: Include in the next round for committee training of the academic year or doing it termly o o DP asks if the Buddy Scheme would be at the beginning of t	Action

packs, sharing how to get to		•	
		packs, sharing how to get to	

	 the off-campus facilities They want to make sure those groups are included in the promotional video and agrees that professoinal photos should be done in off-campus groups GP raises that the re-sharing on social media is nice but there is the professional edge missing as they weren't promotional material HH agrees with the experience of being an off- campus sport
Student Group Training - Workshop Wellbeing training/ how they found summer training - Finding gaps for future training provision	 HH mentions it's a point from their manifesto and wanted to make it more workshoppy rather than sessions HH asks if there is anything SSO members have to feed back on Student Group Training GP says nothing in particular DP asks if the SU has data on who has watched the recording and the click rating LB says they do not MW asks if the training in-person is considered HH says it probably will not be as it is in the Summer GP agrees that a lot of their committee could not attend as it was over summer MW says it would be beneficial as it would allow contact points to the people involved in the student groups HH agrees it wouldve been beneficial in her last year as well TR mentions that this year's training was in a really high standard compared to previous years. She raises that it was a big point in last year's SSO that it is a committee responsibility to attend training and it raises accountibility - that perhaps doing it in person would raise the accountability for it HH asks how it would be best to react if they were to not attend

	 has not completed the training they cannot do events as they would not know how to do risk assessments, and it should be specific to the mandatory committee LB says that the difficult end of it is enforcing it properly, especially when the training is held live and allowing to watch it back, there is an idea to host them as an online module course with the edition of an EDI module. They are also thinking about shortening it, and moving the training days to before the summer so committee members don't forget about it. This would mean that the training would be more accessible if it was before Summer Ball. Agrees that the aspect of networking is needed, they tried to do a committee café but it was on the last day of the summer term but it was a struggle to engage with people TR agrees in the meeting chat MA mentions they have nothing directly on the student training but agrees that the networking opportunity is needed as a platform given by the SU to encourage collaboration. They say there is a demand of people who care about the societies to engage with each other. 	
How they found fresher's fair and GIAG - Feedback gathering	 Freshers' Fair Venue DP says the venue was more spacious, the layout was better and it was sad that it had to be condensed but over two days it would be benefitial MW says the one day is not viable in the future as it was very tiring and very very busy in the venue GP mentions that students would prioritise going to the one society they have seen before instead of walking around MW mentions that people couldn't go 	

 accessible as possible and inclusive HH agrees and mentions it would be benefitial to have an Opps member of staff to say how to respect access hour LB agrees but mentions that having an access hour at the end of the day could mean less accessibility as a lot of committees start packing up early in the day and students that use the access hours might not be able to reach as many societies as the previous hours, but she does take on the feedback TR mentions that they liked the setup as it was better than previous years but it was still way too cramped, they understand the meaning of making it equal across groups but with a larger group you need more space as you will get more people coming in. They suggest that having large groups in a corner was very useful as they got more space that way 	
previous years but it was still way too cramped, they understand the meaning of making it equal across groups but with a larger group you need more space as you will get more people coming in. They suggest that having large groups in	
useful as they got	

that doing the
wristband switch was a
very big faff but they
think it should not be
so heavily regulated
HH agrees but
mentions that with the
sign-ins it was a
struggle for it to not be
crowded
 LB mentions that on
the having more than 2
people in a committee
table is difficult as it
impacts the number of
people that is needed
for health and safety
but that there is room
to have more
conversations with
student groups about
it, it could be an extra
request to have more
than 2 people. It can
be looked into but it
has to be balanced
with what can be done
MMP mentions that
they agree with TR
about increasing the
number of people per
stall as they can cover
all bases of big
societies and even
some committee
members were
queueing to stand by
the table as guests
and talk to people as
they needed the extra
 GP mentions that as a
small society they were put next to a big
society and they had to
manage the crowd as
they felt they were
being pushed out of
the way and they lost
the space to talk to
students
MW agrees that it
comes down to layout
and perhaps grouping
larger soceities with
arger socerites with

more space and grouping smaller societies • Change and improvement • HH mentions that is has already been touched upon but opens suggestions • DP mentions that the GIAG event that took place afterwards was not properly communicated, mentions that Fresher's Fair feels like a careers fair and would like it to be more unique and fun • HH agrees • GP mentions that with the GIAG fair they agree there is not an easy solution but it's hard to demonstrate what some clubs are about as some groups managed to come up with activities to do, and says it could be something that some groups might have struggled to engage with as they might not know what to do as an activity. Perhaps doing a poster with how to get to the events that are off-campus • APQ mentions that the GIAG festival really days and and good but doing it more than once might be beneficial to explain what the GIAG festival really is as people were pretty unsure and it fel a bit rushed and people were underprepared. They also mention it would		
 societies Change and improvement HH mentions that is has already been touched upon but opens suggestions DP mentions that the GIAG event that took place afterwards was not properly communicated, mentions that Fresher's Fair feels like a careers fair and would like it to be more unique and fun HH agrees GP mentions that with the GIAG fair they agree there is not an easy solution but it's hard to demonstrate what some clubs are about as some groups managed to come up with activities to do, and says it could be something that struggled to engage with as they might not know what to do as an activity. underprepared. They		
also mention it would		
	also mention it would	

	 be useful to know what fresher's week looks like before booking taster sessions for student groups as it can be very detrimental for student groups that accidentally clash with events HH explains that sometimes the College does not share their events in time and there is a bunching, but agrees it would be beneficial to block that time out when there is a big event such as Fresher's Fair TR agrees Location of GIAG festival HH mentions maybe founders square, mentions that having it outside might be beneficial as people see it TR mentions that Founders Square in the quad DP mentions that it didn't help that the Sports fair was on the same day as GIAG took a second spot 	
Sustainability Fund - Feedback gathering	 LB introduces the idea on the Student Sustainability Fund, the SU want to become more environmentally sustainable and it's part of their sustainability objective, this also affects suppliers for events and that it would be good to have it as part of the student groups, mentions that Maia promoted sustainability, mentions that there will be a guide on sustainability and that it will be including an award at colours ball 	

[]			
	0	The papers has a set of principles	
		that a student group will have to	
		follow to get the fund	
	0	Principles - do they make sense?	
		 TR mentions that they're very 	
		excited about it, mentions	
		there should be a highlight on	
		#4 as it is the one that has the	
		most impact, maybe moving it	
		to #1?	
		 GP mentions that it might be useful to signpost people on 	
		the principle on the climate	
		emergency to explain it further	
	0	Process - is it too many hoops to	
		jump through and does it protect the	
		integrity of the fund	
		• TR mentions the process	
		makes a lot of sense and the	
		eligibility makes a lot of sense,	
		that it's quite similar to student	
		funding and it might be good	
		to join the two of them	
		 GP asks if there is going to be 	
		a guidance on eligibility or the	
		opportunity to have a chat with	
		the right people on how to	
		become more sustainable	
		 MW agrees with GP 	
		 GP mentions it would be 	
		useful to have a point on	
		where to start and have	
		guidance when writing an	
		impact report but agrees with	
		TR that it's easy to read	
		 LB agrees that there will be 	
		guidance on how to become	
		more sustainable for student	
		groups and that it is also being	
		looked into with Sports to be	
		more sustainable on traveling	
		for fixtures	
		Million in a fill on hold the	
		 MJ raises it might be beneficial to attach the form to 	
		the guide, including that it is	
		very recommended to read	
		the guide which perhaps could	
		be included in the principles.	
		Also it is useful to	
		acknowledge that there is an	
		expertise gap in sustainability	
		and that it is a possible risk as	
		there are no in-house experts	
		about the topic. Mentions that	
		Carbon Literacy training could	
		about the topic. Mentions that	

	 be pushed for all RHSU staff (ACTIONS). Mentions that for the impact report student groups could do external- facing comms such as an Instagram post. TR asks how many times in the year it will be available to apply for the funding, and if student groups over/underestimate the SU will amend the funding given? What is the bigger priority in the principles? What do you do if it's oversubscribed? LB clarifies that the funding applications will be open all- year round but it will have windows throughout the year in the future. There is a small risk of oversuscribing but it will be looked over with the impact reports and it will be edited further along the line. There will be a priority depending on how many principles they comply with. She mentions that if the SU had enough information on the exact costs they will consider that the funding is amended, she would recommend coming in for a meeting if that is to happen or it is expected. It will reviewed in Term 2.
AOB: Student Group Funding	 DP asks about ratifications and what space that would take on, feedback that where doing it on their own they never found out the results and communication was quite choppy TR agree that communication was lacking DP appreciate that the SSO time is limited but that he is struggling to get a solution for it, mentions that it was perhaps due to people not voting MJ raises that student groups is raising exponentially but the staff team is staying the same size LB agrees that there is missing capacity but there is also a gap of facilities for newly ratified sports groups, they are going to be team

 member down during the coming weeks so she warns that responses will be slower but it is hard. HH raises that regarding ratifications, there are 4 student groups that are going through the process of ratification, they were given a stool at Fresher's fair but that it should not sway opinions when looking at ratification as they are still not affiliated to the SU
